

Who Are the Lions?

Lions Clubs International is the world's largest service club organization with 1.3 million members in approximately 45,000 clubs in 206 countries and geographical areas.

Established in 1917 for eyesight conservation, the services have expanded to meet the challenges in our ever changing complex world.

In 1925, Helen Keller asked the Lions to become "knights of the blind in the crusade against blindness." They accepted this challenge and Lions have supported sight- related projects ever since among their many other types of community service.

Lions plan and conduct a variety of community and humanitarian projects.

Membership

The members of our club, men and women, are of all ages, and we come from very diverse backgrounds. A common bond we all share is the desire to better our community and provide people with benefits which are not otherwise available. Through membership, Lions not only help people in need, but have opportunities to develop personal friendships and gain valuable leadership skills.
